### Complete Faith

#### What is called “not to be satisfied with partial faith”?

Not to be satisfied with partial faith means that we are forbidden to be satisfied with the measure of unity we achieve, but to understand that there is always more to be added. There is no moment that man is able to rest from the exertion, from the effort to connect. If a person leaves it for a moment, then he immediately exits the correct path. We must constantly try to discover the connection, and from within the connection to discover the Creator. If I am constantly occupied with that, then it is a sign that I am directed towards the goal of the creation.

The Torah talks only about the connection between us: "To love your fellow man as yourself, is the general rule of the Torah." We must reach love since within loving our fellow man we receive the attribute of the Creator, and the Creator is revealed to us according to the measure of this attribute that we acquire.

## Daily Kabbalah Definition

*Definitions in the daily Kabbalah lesson guide a precise, spiritual approach to terms, & disqualify materialized corporeal definitions*

### **Working for the Lord - Within Reason and Above Reason**

**The spiritual meaning of the concepts: "working for the Lord," "within reason," and "above reason."**

The spiritual path is entirely the revelation of the actions of the Creator on us, and how we can respond to them correctly. If a person wants to discover Who is acting on him and what He is doing, and there is nothing in his reality except these two things, then he is called "a person who is doing the work of the Creator."

When such a person proceeds to discover the actions, and from the actions he wants to discover the Operator, then he has a relation to this. If he relates to the actions themselves, to what he experiences and feels, this is called that he is "within reason." However, if he relates to the action, to the Creator who creates these actions, without paying attention to what he is feeling, above the feeling of good or bad, then this is called that the person is already in the work of "above reason."
