It Is The Time To Act

Lately, as the systematic global crisis becomes more apparent, there is a sense that it's necessary to create a proper system of global functioning. Baal HaSulam writes that we have to transform our society according to new conditions, which are nature's demands. The crisis is making it apparent that we have to become similar to nature, or the general interconnection.

I see that it is possible to gradually implement relationships of love and <u>bestowal</u> which are similar to nature. This can be done in the virtual realm; there, all the people in the world can feel connected with one another and experience their existence together. Out of all the existing means of communication, only the Internet can serve as this place of connection; it can't be done through television, newspapers, or books.

Only the World Wide Web, the Internet, can satisfy the demands of <u>dissemination</u> and unification in order to create a global <u>system of upbringing</u> for children and adults alike. Only it can provide the global connection in order to form a common force of unity. Then we will all feel each other through the channels of connection, and reach a spiritual connection.

The Global System Of The Future Society

We want to build a global system that will serve as a new kind of connection for humanity. It will bring people into situations where they will discern that due to the laws of nature, it pays more to <a href="https://example.com/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/bestow/best

This will be a system of <u>education</u> that will make a person feel how step by step he is being taught about the laws and rules of the new society. These laws are derived from attainment of the general system of nature, of which we are a part. Similarity to the main law—"love your neighbor"—is universal and primary. Everything else is a derivative from it. (See Baal HaSulam's article, "One Law.")

The connections that will develop within this system will turn into a virtual state where people will bring a spiritual component into the <u>virtual connection</u>. Within this system people will begin to create connections among them that are inherent even in our mundane lives. From the new awareness of the right relationships, they will also begin creating the appropriate connections in business, family, and others.

Gradually, all forms of connection among people will develop within this system, until it comes to replace all the systems of egoistic connection. The latter is what appears to unite people today, although in reality it only separates people and puts them at odds with one another.

The nature, goal, and influence of the new system upon every person is completely different. It has to contain an intellect, an ability to learn and teach the people that use it, as well as to give advice to those who set it in motion. It also has to listen to their suggestions regarding which changes must be executed in the connection among people so they gradually advance to closer connections among each other, until reaching a connection that is above egoism.
